Execute commands more efficiently with the Action Bar

February 5, 2020

Tiffany Go
Sr. Product Marketing Manager

We are excited to share a powerful new feature that evolved from our last [Hackathon](#), the Action Bar.

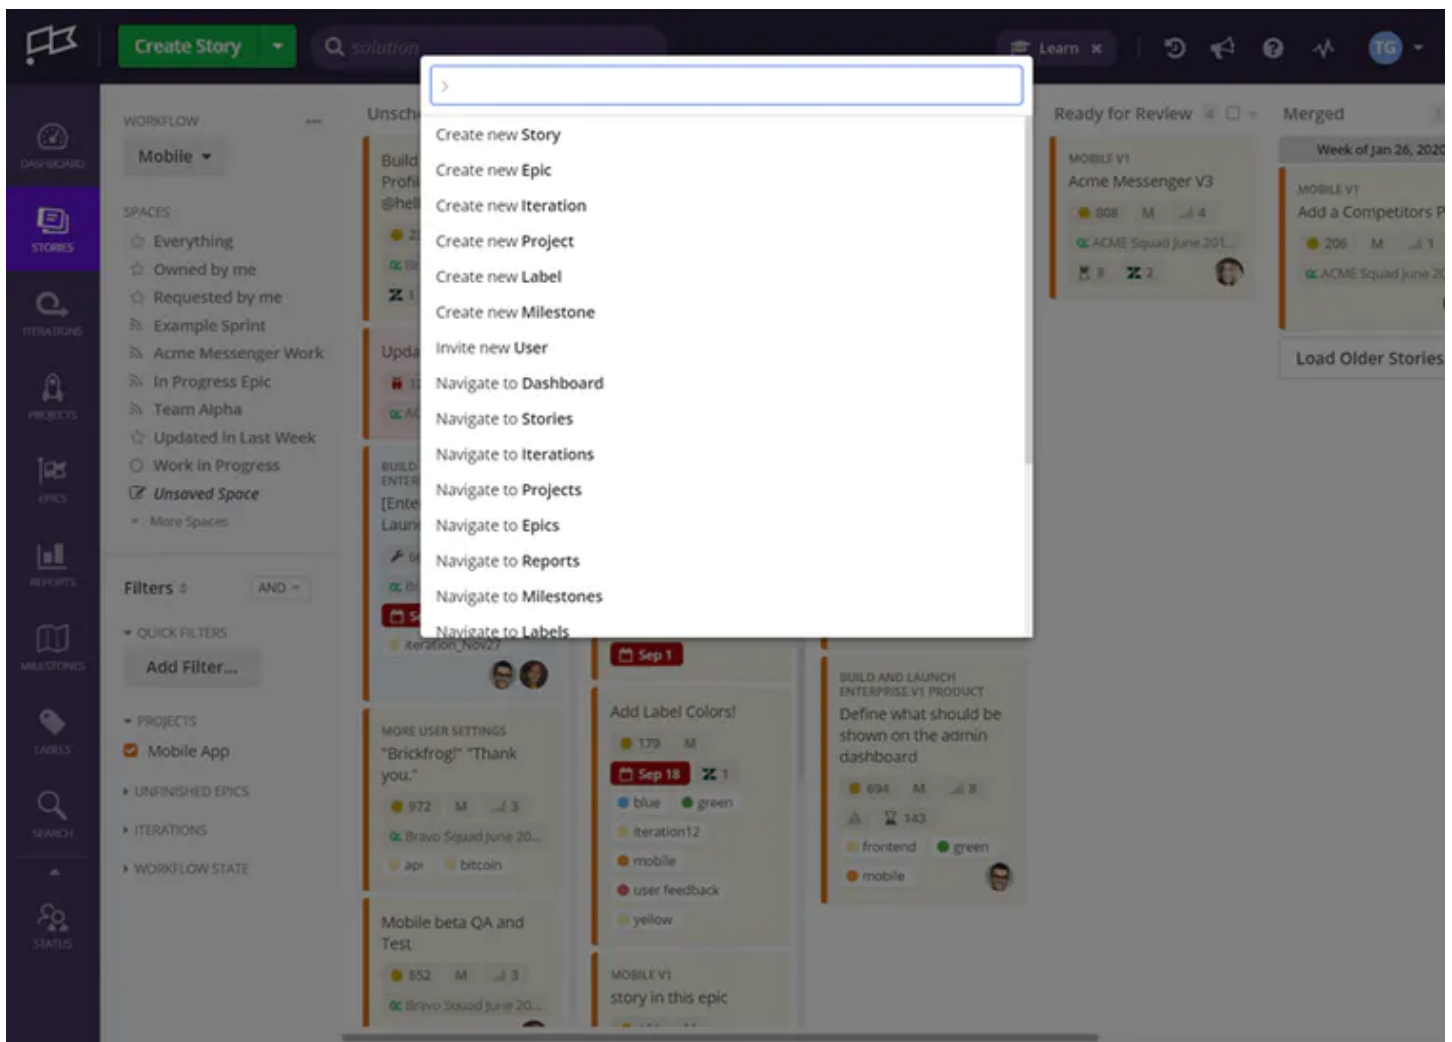

The Action Bar is a quick launch command menu that puts many important actions in Clubhouse at your fingertips. Execute commands with just a few keystrokes to get more work done, faster.

Activate the Action Bar with two keystrokes

With a simple keyboard command, let the Action Bar do the work for you!

- For Mac: cmd + k
- For PC: ctrl + k

See the [full list of Action Bar commands](#) here!

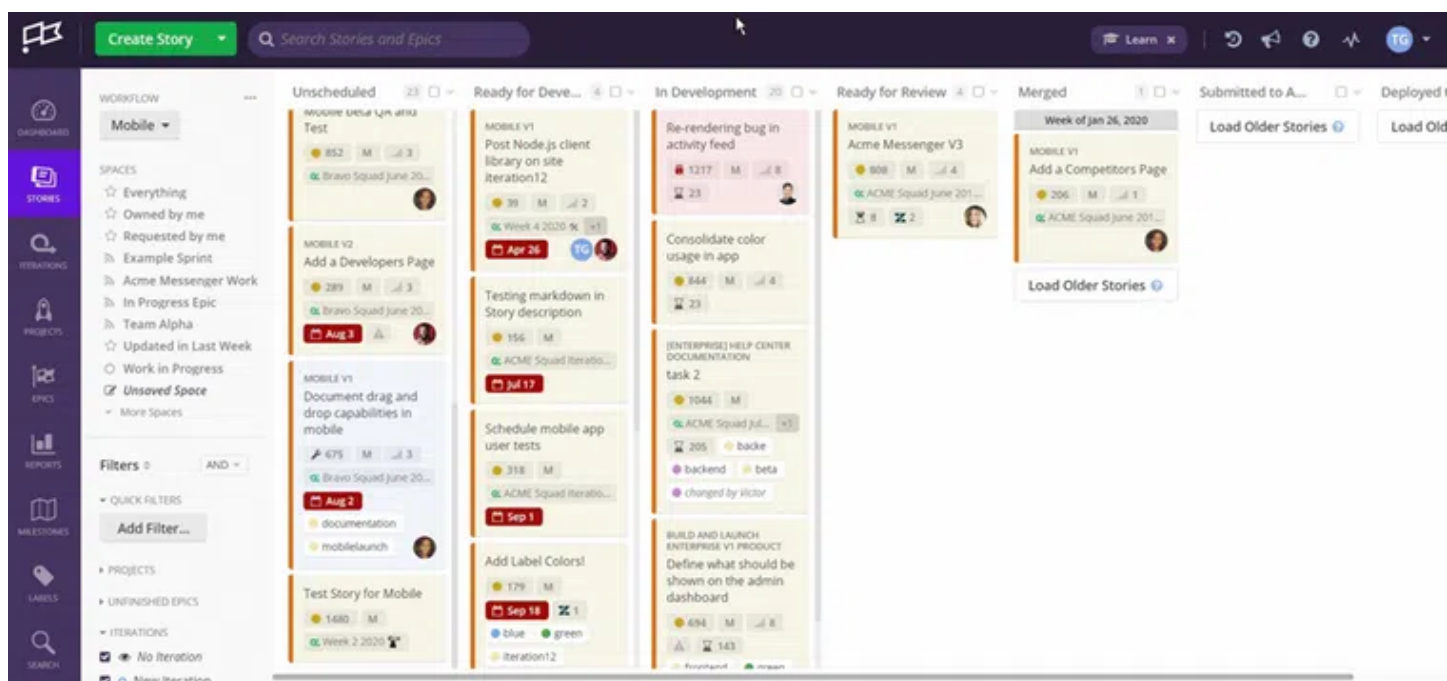

The Action Bar!

Enable crazy fast workflows with the Action Bar

Here are some of our favorite Action Bar commands we use to navigate quickly through Clubhouse:

Create a new Story

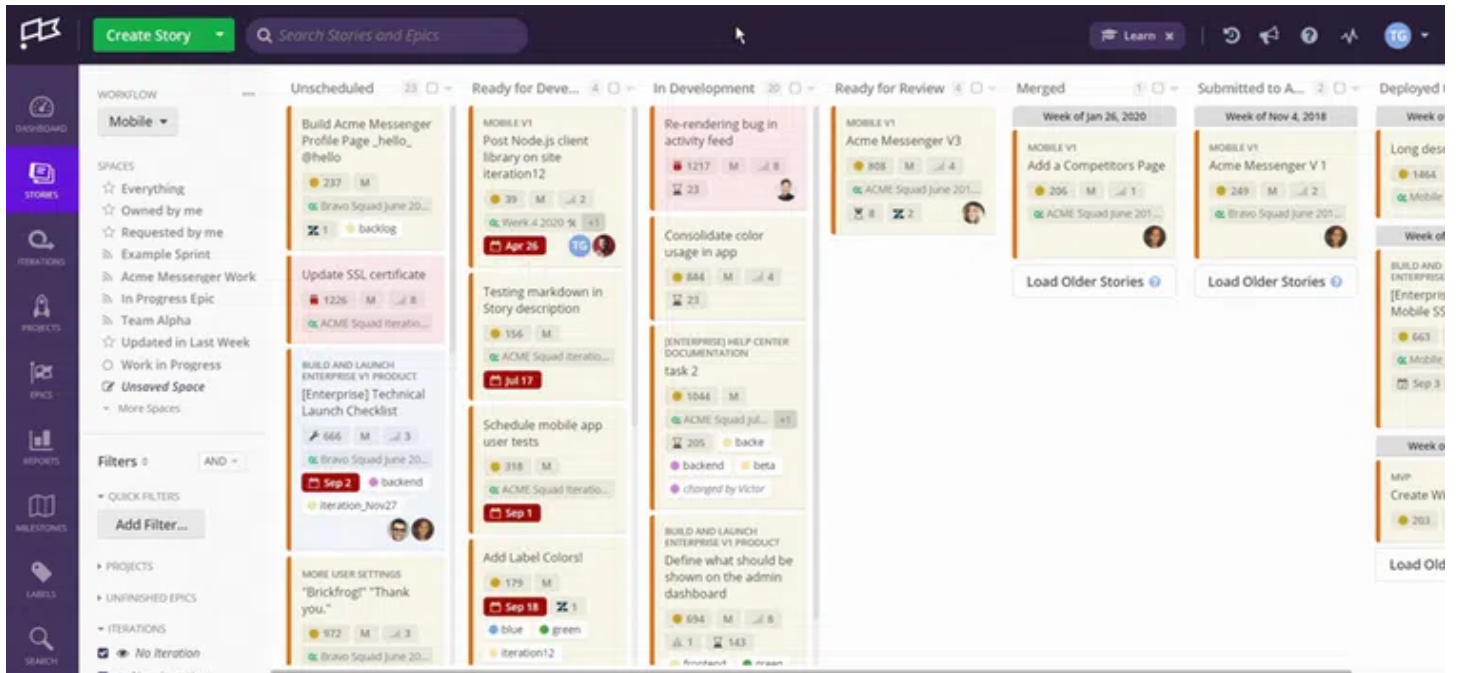

Quickly launch the Story creation modal in a snap from wherever you are in Clubhouse 🌬️🌬️🌬️

Create a new Story

Zip around Clubhouse with less clicks!

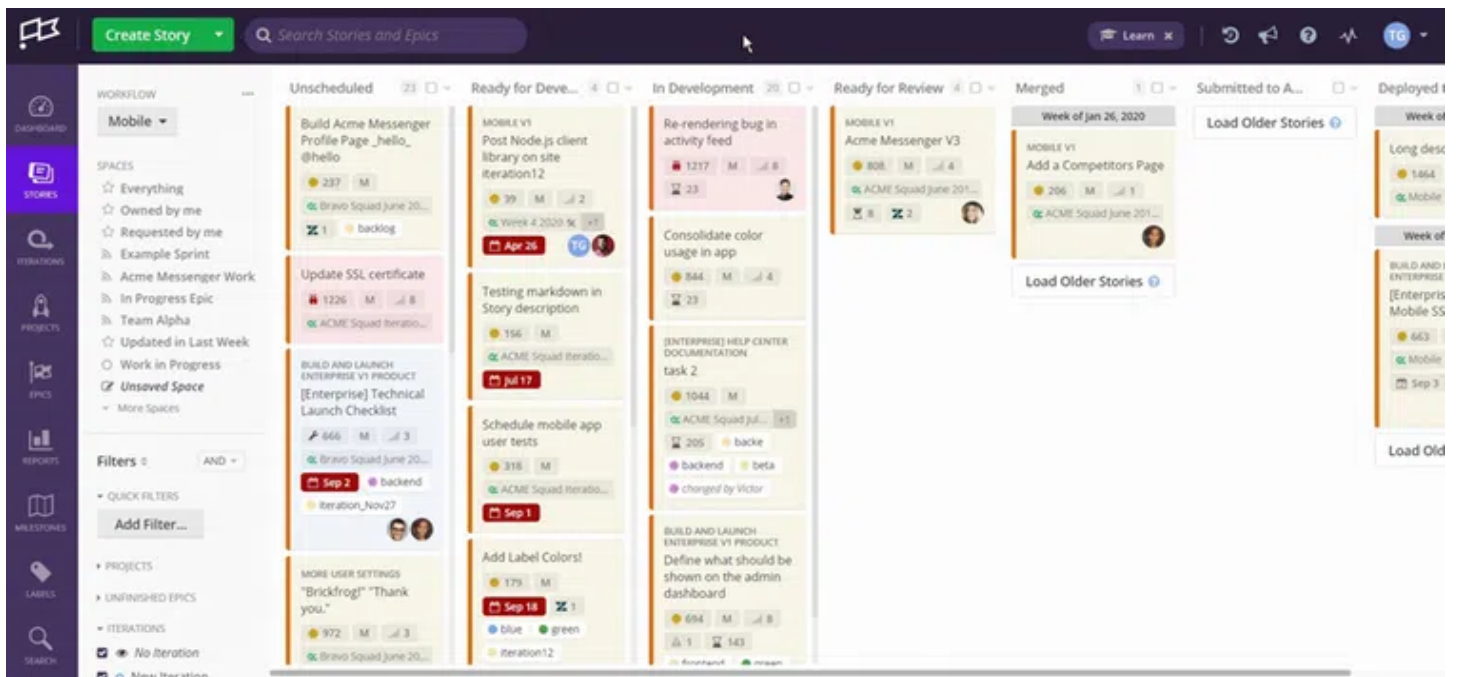

Flip from the Epic page to the Iterations page and back with fewer clicks and distractions to your workflow.

Navigate around Clubhouse with less disruption

Toggle Dark Mode on or off

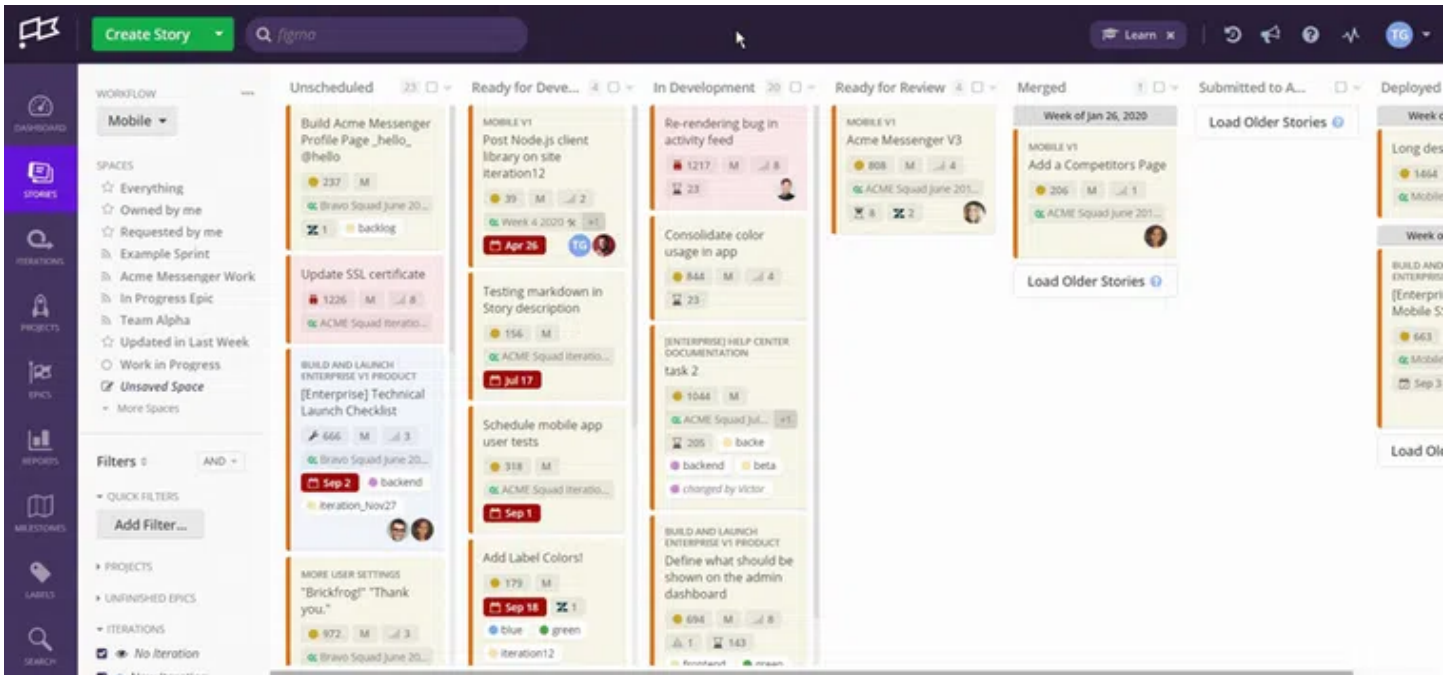

Flip Dark Mode on or off without having to navigate to Settings.

Toggle Dark Mode on and off

Invite a New User

Get new teammates into Clubhouse faster without having to navigate into the Settings page.

Invite a new User

We're just getting started with this feature! If there are other commands you'd like to see, please let us know in the comments below or [send us a note](#).
